

BUTTERFLY NOTE-APP

It is a note-taking app that will help you take notes when you are in a meeting, classroom or even on important occasions.

The key features

- It has digital scanning and sharing access
- It can recognize different languages
- It will automatically record if one is using voice-to-text
- It will help one take quick and accurate notes without typing since it has voice-to-text access
- It will use the Google Calendar reminder function which will allow you to get notified about important notes

Call To Action

I invite every one of you to participate in the beta -test and give out your opinions and ideas about the app.
